MindPal

Junior Software Developer

React / Supabase

LOCATION	COOPERATION	COMPENSATION
On-site, Gliwice	Contract of Mandate	31,40–40,00 PLN gross/hour

Build and ship real features across frontend and backend for intelligent systems in energy, education and HR-tech. 1+ year of commercial experience, curiosity and the drive to grow are what count — you don't need to know everything yet.

1 What You'll Work On

- React, TypeScript and Vite application features
- Supabase: PostgreSQL, authentication and storage
- Backend logic with Supabase Edge Functions
- Integrations with external services via REST APIs
- AI-powered tools and automation in the dev process

2 What We're Looking For

- 1+ year of commercial software development
- JavaScript/TypeScript and React fundamentals
- SQL and PostgreSQL basics
- REST APIs, async programming and Git
- Communicative English and Polish (B2)
- Plus: Supabase, Firebase, Node.js or serverless

3 What We Offer

- Long-term cooperation with growth across frontend and backend
- Real projects for international clients with modern tech
- AI-powered tools and automation for efficient delivery
- Collaborative team: knowledge-sharing and ownership
